
RMA Warranty and Service

NEXCOM has established the following guidelines in order to give customers' the best support and ensure that product repair times are kept to an absolute minimum. All returns from customers must be accompanied with a Return Material Authorization Number (RMA No). Customers may obtain an RMA number from the NEXCOM e-RMA portal (<http://rma.nexcom.com.tw/rma/>), and return goods to NEXCOM's regional RMA service center for repair. The RMA number will be void if the goods are not returned within 30 days from the RMA number application.

1. Warranty

1.1 Product Warranty Period

NEXCOM builds Products in accordance with the industry standards. For parts built by NEXCOM; including, but not limited to, the main board, power supply, chassis, fan kit and heat-sink; the warranty period will be 2 years. Barebone systems assembled by NEXCOM will also have a standard 2 years warranty period. Optional commodity parts including, but not limited to, CPU, RAM module, HDD, SSD, and add-on cards are not covered by NEXCOM's warranty unless specifically stated, instead the external vendor's warranty will apply.

****The warranty policy for ODM products shall be defined by ODM contract individually.**

Product Warranty Information

Product Series		Product	Model	Limited Warranty years	Warranty remark	Warranty ineffectiveness
Industrial Computing	BOARD	Single board Computer	PEAK,NEX,NBP	2	3rd party not manufacture by NEXCOM ex.CPU/RAM/HD/CF/Panel/Touch by original supplier's standard	Please refer to 1.2 Exclusion Warranty

****3rd party manufacturer products (ex: panel, touch screen, CPU...) will not be included normal 2 years warranty.**

1.4 TAT(Turn-Around-Time) :

Upon the receipt of returned goods, NEXCOM should complete all RMA and send back to the customers within 2 calendar weeks (less than 30pcs), except for customer request to failure analyze.

2. Service Type :

Service type	From the shipping date	Freight Charge	Repair Fee Charge	TAT
DOA	30 days	NEXCOM	Free	7 days
In-Warranty	1 month ~ 24 months	1.1 Return by NEXCOM 1.2 Send back by customer	Free	14 days
Out-of Warranty	over 24 months	Customer	Diagnostic charge + Material cost	By case
Refurbish		Customer	Diagnostic charge + Material cost	By case
Rework		By case	By case	By case

2.1 DOA (Defect-on-Arrival) Process

If a unit fails to function upon initial arrival, the customer is to contact Sales Administrator who will involve a Quality Support Engineer to determine if the unit is DOA. If the problem cannot be resolved over the phone, then the customer will return the unit for expedited repair using the NEXCOM eRMA process (<http://rma.nexcom.com.tw>).

NEXCOM will make every effort to expedite the repair or replacement of DOA units within 7 days. NEXCOM will pay 2 way shipping cost.

A product replacement may only be issued if it is possible to obtain a replacement unit during the first 30 days of the purchase, and if the product was purchased directly from NEXCOM. The return must not be damaged, altered or marked, and include all parts and accessories as originally shipped, along with proof of purchase. Returns that do not meet this requirement may be denied or subject to an additional restocking charge as determined by the NEXCOM RMA Department. Damaged items are not accepted.

To apply the faulty units swap service, the customer needs to request a confirmation letter which needs to be signed and returned to NEXCOM.

The amount of time required to provide a replacement unit shall be dependent upon product availability.

2.2 In-Warranty RMA Process

During the warranty period, NEXCOM agrees to service and provide all parts and labor necessary to repair or replace the warranted product to its proper operating condition consistent with NEXCOM product specifications. Repair or replacement parts and products will be furnished on an exchange basis and will be either new or reconditioned. Customers will pay the cost of shipping the defective product back to a NEXCOM Service Site, NEXCOM will offer to cover the cost of return shipments. All returns from customers must be authorized with an NEXCOM RMA (Return Material Authorization) number; the customer is responsible for packaging and shipping the product to the designated NEXCOM service site. The Return Material Authorization number is **void after 30 days**, and must be clearly marked on the exterior of the original shipping container or equivalent. NEXCOM will not be responsible for delays in the repair time if the material is not returned with a clearly visible, valid RMA number. In case of expedited shipping request, an extra service charge shall be assessed and the customer is responsible for this extra return shipping charge.

2.2.1 Customers should return fault products to NEXCOM authorized service center after the RMA number(s) obtained from NEXCOM eRMA system.

2.2.2 Customers need to fill in all the information related to the problem on the NEXCOM eRMA system when applying for the RMA service; information will help to understand the problem, including the fault description, on-screen messages, and pictures if possible.

2.2.3 Customers can send back the faulty product with or without the accessories and key parts such as the CPU and DIMM. If the key parts are included, they should be noted clearly on the return form. NEXCOM takes no responsibility for the parts which are not listed on the return form.

2.2.4 Customers hold the responsibility to ensure that the packaging of defective products is durable enough to be resistant against further damage due to the transportation; damage caused by transportation is treated as "Out of Warranty" under our Warranty specification.

2.2.5 RMA product returned by NEXCOM to any location other than the customer registered delivery address will incur an extra shipping charge, the customer is responsible for paying the extra shipping charges, duties, and taxes of this shipment.

2.3 Out-of-Warranty RMA Process

Before an RMA number is provided; all out of warranty units must have a Purchase Order to cover a labor cost. Customers shall receive a quote for repairs before anything is charged to the PO.

The product will be processed as Out of Warranty if:

- The product has been found to be defective after expiration of the warranty period.
- Physical damage of the product, caused by the user
- Improper or inadequate maintenance or modification
- Missing or broken parts or components
- Missing or broken serial number label
- Foreign objects inside the product
- Software, media, parts, or supplies not provided or supported by NEXCOM
- Operation outside the product's specifications

If a product has been repaired by NEXCOM, and within three months or 90 days after the initial repair, the product requires further repair for the same problem, NEXCOM will repair the failure free of charge. However, such free repair does not apply to a product which has been subjected to misuse, abuse and unauthorized repair or a product that required repair for a different problem. While NEXCOM will do everything possible to repair out of warranty units, the repair service may be limited due to technical limitations and/or availability of spare parts

2.3.1 Product out-of-warranty charge Cost

As below listed: Product out-of-warranty service charge list

Product out of warranty service charge

2.4 Refurbish Product Process

The service may vary depending on shipping cost and the cost of replacement materials.

2.5 Rework Process

The service may vary depending on customer requirements. Additional costs will be confirmed by the Sales Manager before the rework takes place.

3. Product Repairing

3.1 NEXCOM will repair defective products covered under this limited warranty that are returned to NEXCOM; if products do prove to be defective, they will be repaired during their warranty period unless other warranty terms have been specified.

3.2 NEXCOM owns all parts removed from repaired products.

3.3 NEXCOM will use parts made by various manufacturers in performing the repair.

3.4 The repaired products will be warranted subjected to the original warranty coverage and period only.

3.5 NEXCOM will issue RMA Report which included Repair Detailed Information to the customer when the defective products were repaired and returned.

3.6 In addition to the above, NEXCOM may authorize Independent/Third- party suppliers to repair the defective products for NEXCOM.

4. Product End of Support

Any product being discontinued will be announced as EOL (End of Life) and identified on the price list for at least six months prior to its discontinuation. At the last buy day, discontinued products will be removed from the price list and are no longer available for purchase unless specially requested. Product Support, however, will last until the day of EOS (End of Support) which is the last Shipment Day of EOL product plus the product Warranty Period. So, the product support and warranty for the Last-buy discontinued product will be granted until its warranty period is expired, that's, reaching the EOS Day of the product.

Before its EOS Day, NEXCOM will continue to investigate, troubleshoot, and characterize issues in an attempt to provide solutions and workarounds for these products; when it reaches its EOS Day, NEXCOM will only provide limited support on a commercial effort basis.

NEXCOM reserves the right to charge for any requested support/service of any EOS product. In addition, NEXCOM reserves the right to reduce service available for renewal EOL product under this policy at any time in its sole discretion, with or without notice.
